The screenshot shows the 'registration' page of the 'friends OF MILL HILL SCHOOL FOUNDATION' website. The page features a navigation menu on the left with buttons for 'home', 'news', 'events', 'my details', 'contact us', 'links', 'the appeal', 'donate now', and 'book an event'. The main content area is titled 'registration' and includes a welcome message: 'If you do not yet have a username and password, please fill in your details below and we will be in touch as soon as possible. Once you have logged in you can change your password.' Below this, it states 'Fields marked \* are mandatory.' and lists several form fields: 'Reference Number (if known)', '\*Forename/s', '\*Surname', 'Previous Name (if different from Surname)', '\*Email Address', and '\*Phone Number'. There are also dropdown menus for 'How did you hear about e-friends' and 'Your connection with the Foundation', and a text field for 'The House with which you are or were associated'. A 'send' button is at the bottom of the form. On the right side, there is a 'news' section with a headline 'golfing success' and a 'new user' section with a 'login' form containing fields for 'username:' (with the value 'abe00002') and 'password:', and a 'submit' button.

This section contains three smaller screenshots of the website interface. The first is a 'search' page with a search bar and various filters. The second is an 'update my details' page for a user named 'Mr. Kumar Jyoti Kruger Wilton', showing fields for name, title, address, phone, and email. The third is a 'new password' page with a 'New password' field and a 'confirm' button.
